

U9125-900

Hoover® Z™ 400

Bagless Upright Vacuum

The World's First Sport Utility Vacuum

Telescoping Quick-Release Wand with Super-Stretch Hose

- Super-stretch hose and wand reach 20' for easy stair cleaning and the vacuum folds into a canister for added stability.
- Hose swivels 360°, so it won't kink or topple the vacuum.

Patent-Pending Z-Fold™ Design

Offers the performance and convenience of an upright, and the flexibility and stability of a canister.

When in the upright position, you don't have to stop to use cleaning tools – they're always accessible and ready to work for you – so cleaning above floor is convenient.

Patent-Pending Self-Cleaning HEPA Filter. Every 6 Seconds, the Filter Cleans Itself.

- Fine dirt and dust are trapped by the filter as it rotates, while larger particles fall into the dirt cup.
- As it reaches the cleaning position, a combination of reverse airflow and gentle tapping releases the fine dirt and dust from the filter.
- Dirt and dust fall into the dirt cup. The filter continues to turn, and the next section is cleaned.

DigiTouch™ Control Pad

At your fingertips! Simply touch the desired setting, and it automatically adjusts.

- On/Off
- Automatic Carpet Height Settings
- Automatic Hard-Surface Setting
- Diagnostic Indicators

2 YEAR WARRANTY

Hoover® Z™ 400 Bagless Upright Vacuum

The World's First Sport Utility Vacuum

Patent-Pending Z-Fold™ Design

The performance of an upright, the flexibility of a canister.

Telescoping Quick-Release Wand with Super-Stretch Hose

- 20' of cleaning reach for easy stair cleaning.
- Hose swivels 360°, so it won't kink or topple the vacuum.
